Les Adventures : Snorkeling

Snorkeling is the easiest way to discover the Maldives' fascinating underwater life. Alone or with your family, join any of the exciting snorkeling adventures offered at Randheli!

Snorkeling for Beginners – For those who are snorkeling for the first time or are a bit nervous in the deep water. A short private instruction session in the lagoon, followed by a snorkeling trip at a very shallow water location.

Snorkel Splash – A snorkeling trip with the boat where we stop at one site and snorkel in a nearby reef, and have the experience of being surrounded by myriads of fish, and colourful corals.

Noonu Snorkel Discovery – For those who want to explore the different reefs in Noonu Atoll, suitable for both snorkeling enthusiasts and those who are just exploring this fantastic experience in the water. We will do snorkeling to two different reefs among the best snorkeling sites around the atoll, each one with its own special characteristics.

Sunset Snorkeling and Night Snorkeling – To experience the charm of the reefs in the transition from light to dark. Snorkeling at sunset will offer you an unforgettable experience, to see the sea portray the colors of the sunset and species shy during the day, such as reef sharks, moray eels or octopus become more active and prey on small fish and crustaceans. Or seize the moment in which sea turtles go to sleep sheltered by large corals. It is recommended to be good swimmers and to have experienced a day snorkeling trip before the sunset or night snorkeling. At night, with a torch, you will see the colors of the reef in their full splendor and marine fauna and flora which you can't see during the day. Use the ultra violet torches to see the fluorescent and amazing colours of the corals at night in their splendid greens, reds and yellows.

Turtle Adventure – In Noonu Atoll we have two different species of marine turtle – Green and Hawksbill. See them in their natural habitat and get up close and personal with these gentle sea creatures! We take you to a beautiful local reef where turtles are frequently seen; bring your camera or rent one of ours – this is an opportunity not to be missed!

Sunrise Snorkeling – Experience the rising sun in Noonu Atoll, see how the dwellers of the reef go back to their diurnal habits after the active night. Early morning snorkeling is the best time to see some species still retain their nocturnal behavior and be able to admire the corals as never seen before.

Les Adventures : Boat

The following boat excursions are scheduled for group outings as indicated further in this document. They may also be booked for private outings using any of Randheli's boat fleet – our Dive Centre will be able to provide further information on available and suitable vessels for your desired excursion.

Cruise with the Dolphin – A journey out to the edge of the atoll to spot pods of dolphins cruising through the channels between the islands. When the sea is calm is the best time, you can capture stunning images of our beautiful friends from the boat... you can spot Bottlenose dolphins calmly feeding or Spinner dolphins performing acrobatic leaps and pirouettes, they are the most common species in the atoll... or with more luck make an unusual encounter with pilot whales or Risso's dolphins. Large pods can come very close, often they come surfing in front of the boat guiding you for this adventure and playing with waves or slapping the water with their tails. It is not guarantee hundred per cent to find dolphins as they are wild and move around the atoll.

Sunset Cruise – Enjoy the sunset in the Maldives, chase the sun to the horizon and watch the sky and the sea change colour by the minute as dusk approaches. Celebrate the glorious day's end in style with delicious canapes and a glass of champagne. Then return after dark to experience the softly glowing lights of Randheli from the sea.

Traditional Sunset and Night Fishing – Catch your dinner in the Maldivian way on a fishing expedition, trying the traditional Maldivian method of handline fishing. Sunset fishing is the way to go, and the boat leaves before the sunset to find a good spot near a reef. The boat crew will show you how to use the lines, hooks, and sinkers and help you rig your fishing "rolls" as you get knowledge of this island nation's unique culture.

Bait fish, weights, lines and hooks are all provided on the trip, and well-trained and experienced staff will accompany you on the journey, answering any questions you may have and ensuring you have plenty of fun.

Local Island Tour – Experience life as the Maldivians have done for thousands of years – join our dhoni boat trip to visit Velidhoo, a nearby inhabited island with its colorful pink, turquoise and pale green painted houses, century old banyan trees, small shipyard and local Mosque whilst we share with you some interesting facts about Maldivian history. For those of you who have ever wondered how these welcoming people live, this is your chance.
